Adding Numbers to Your Contact List

Many times you will find that you have Frequently Called Numbers from your cell phone, instead of going through the call tree you can add the number to your phone by the following instructions:

The numbers for -

- Cell to DSN# 0176771110,1(For English),,1,,226XXXX
- Cell to Operator 0176771110,1(For English),,0
- Cell to Allied# 0176778255,,1XXXxxxXXXX

To Add a comma:

- Android:** Hold down the * (star) key and it should create a comma. A lower case “p” should work as well.
- iPhone:** When you’re adding a contact hit the +*# and click on the pause button.

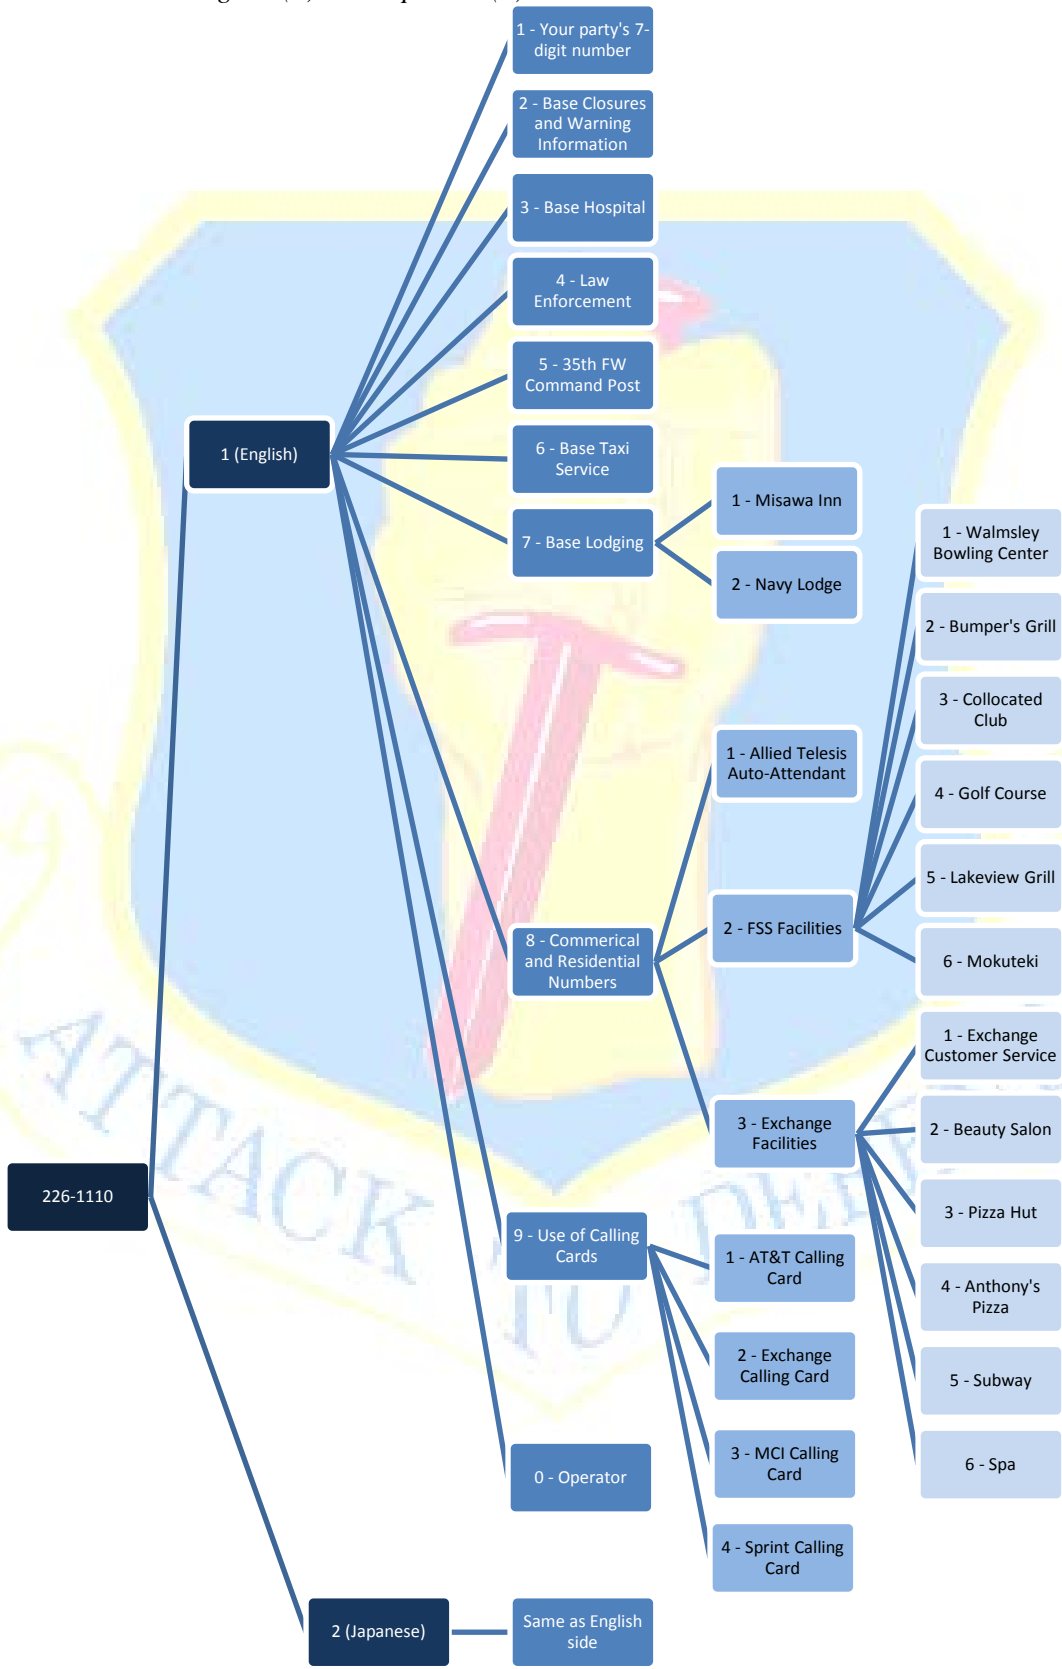

Android and iPhone App

Some volunteers are creating a phone converter app for smartphones.

- Android:** Can be downloaded on GooglePlay. It is called the Misawa DSN Converter.
- iPhone:** TBA
