

DEPENDENTS REMAINING OVERSEAS (DRO)

2.3.1.1. GENERAL PROVISIONS

This program applied to Airman currently assigned overseas. The program allows an Airman to request that their command sponsored dependents remain overseas for a specific length of time after the Airman out-processes and departs the overseas duty station.

2.3.1.2. PURPOSE

Dependents residing in a host nation with their military sponsor are afforded certain privileges set forth by the Status of Forces Agreement (SOFA) between the host nation and the U.S. When the military member departs and leaves dependents in the host nation, some SOFAs do not allow for continues privileges, such as tax-free fuel, continues enrollment in DODDS, etc. A DRO addresses limitations of continues support and provides for continuation of COLA/OHA/BAH for the dependent location, unless member is assigned family quarters at new permanent duty station, when command sponsored dependents remain at the current overseas location. A DRO application is submitted after an Airman is selected for an assignment and prior to his or her departure from the overseas duty station. The following are DRO examples:

- 2.3.1.2.1. An Airman has a dependent restricted assignment to Korea and request his/her dependents remain in Alaska while serving the overseas dependent restricted tour
or
- 2.3.1.2.2. An Airman has been selected for ACSC and elects to leave his/her dependents in Germany pending subsequent PCS from school
or
- 2.3.1.2.3. An Airman stations at Elmendorf AFB, AK, has an assignment to Altus AFB with a 60 day TDY enroute at Little Rocke AFB, AR and requests dependents remain at Elmendorf while attending training at Little Rock AFB, AR.
